MEMS/NEMS Faculty Positions

Department of Mechanical Engineering
University of Louisville
Louisville, KY

The Department of Mechanical Engineering at the University of Louisville invites applications for two tenure track faculty positions in the areas of microelectromechanical systems (MEMS) or nanoelectromechanical systems (NEMS). Applicants should have an earned doctorate in mechanical engineering or a related discipline and be qualified to teach undergraduate and graduate level mechanical engineering courses. They should also have research credentials consistent with development of an externally funded research program utilizing the university’s new 10,000 sq. ft. class 100 Micro/NanoTechnology Cleanroom Core Facility (http://www.mems.louisville.edu), one of the top ten such facilities in the United States. We intend to fill these positions at the level of assistant professor; however, more senior appointments or even endowed chair positions may be considered for applicants with appropriate qualifications.

Review of applications will begin immediately and continue until the positions are filled. Submit your materials by June 30, 2007 to be assured of full consideration. Applications should include a detailed curriculum vita, a statement of research and teaching interests, and at least three references. Address inquiries to:

Professor Christopher M. Richards
Chair, MEMS Faculty Search Committee
Department of Mechanical Engineering
University of Louisville, Louisville, KY 40292
502-852-6336
cmmrich02@louisville.edu

Materials may be either mailed to Dr. Richards’ attention, or submitted electronically in PDF format (preferred) to: MEMEMS@gwise.louisville.edu
